

The Most Powerful Field Training Solution For Law Enforcement

Improve your Field Training Program, Compliance, Documentation, and Accountability

Evaluations+ comes preloaded with CTE evaluation forms already built in, so you can start training even faster. When you equip your Field Training Officers with the Vector Solutions Evaluations+ app, you make it easier for them to record and document in-field officer training as well as improve skill proficiency. Vector Solutions is a preferred partner with Command Presence and their Coach, Train, then Evaluate (CTE) field training program. Evaluation reports are recorded in Vector's integrated training management system for an end-to-end training management and documentation program along every point throughout an officer's career.

Information

Less Administrative Time Means More Training Time

Centralize and digitize your entire field training program to reduce administrative time and increase training time. Submit DORs from mobile devices. Leverage preloaded CTE forms, observed training requirements, and other skill assessments. Digitize your field training manual, and all field training resources for a paperless program.

Better Documentation and Liability Safeguards

Protect your agency with thorough documentation that shows your personnel have been properly trained. Streamline reviews with multiple levels of eSignature approvals. Standardize and improve your training programs for recruits, new supervisors, instructors, and more.

Better Skill Mastery

How are you measuring skill mastery? Officers better comprehend their performance and opportunities for improvement with color-coded performance dashboards and features to capture live video of their tactics and techniques. Leverage end-of-phase reporting to provide feedback touchpoints and make training adjustments as needed.
