

# Louisiana Fire & EMS Training

## Simplify PIAL Training Tracking, Meet 100% EMS CE Requirements & Centralize Training Management

The **Louisiana Office of State Fire Marshal** does not require continuing education (CE) for Louisiana fire professionals. CE hours are due at the discretion of the local fire department.

The **Louisiana Department of Health (LDH) Bureau of Emergency Medical Services (BEMS)** requires EMS providers to maintain their national license through the National Registry of Emergency Medical Technicians (NREMT). The courses offered by Vector Solutions have been approved by CAPCE to meet the requirements for an EMS Professional\*.

| License   | Hours Required | Renewal Cycle |
|-----------|----------------|---------------|
| EMT       | 40             | Biennial      |
| AEMT      | 50             | Biennial      |
| Paramedic | 60             | Biennial      |

EMS CE is due by March 31st, two years from previous renewal. All hours may be taken online. Hours required per national, local/state, and individual components vary by provider level.

Required National Component topics include:

- Airway/Respiration/Ventilation
- Cardiovascular
- Medical
- Trauma
- Operations

At least 10% of the National Component must cover pediatric content

*\*It is the licensee's responsibility to verify that the course material meets their specific scope of practice and criteria required by BEMS.*

### Manage All Training in Vector's Unified Agency Readiness Platform

- **PIAL:** Prebuilt training trackers aligned with the specific factors PIAL considers when determining a district's grading help capture all training detail assessors look for.

- **EMS:** CAPCE approved CE. Role-specific trackers automatically apply CE to the correct categories to help ensure providers stay on track and complete the right courses for their license.
- **Centralized:** Document all training (classroom, online, live skill), monitor licenses and certifications, design training plans, and manage in-person events in one, audit-ready system.
- **Additional Libraries:** Supplement professional development, safety, and compliance training with a range of high-quality, self-paced online courses that support career growth and success.
- **Training Group App:** Digitize hands-on evaluations with the integrated live skills mobile app to accelerate skill mastery, strengthen compliance, and gain total insight into crew readiness.
