Illinois Fire & EMS Training and Operations

Access Free Regional Training Platform, Upgrade for Total Training Management, and Supercharge Crews with a Purpose-Built Suite

The Office of the Illinois State Fire Marshal (OSFM) requires continuing education and recertification for *28 fire certifications*. Illinois OSFM has partnered with Vector Solutions to provide all Illinois fire-EMS departments with free access to a regional TargetSolutions platform for fire-related task books, materials, and automated recertification reporting, streamlining training and compliance tracking.

Upgrade to Vector's paid Premier TargetSolutions Platform to manage 100% of your department's training in one place and train, prepare, and retain your people with a purpose-built solution suite.

Illinois EMS licensed providers may also leverage Vector Solution's online CAPCE-accredited EMS courses to meet recertification continuing education requirements.*

Training & Credential Management	Regional Platform	Premium Platform
Access 34+ fire Recertification Task Books Pre-built custom task books with NFPA activities for recording hands-on training	✔	✔

Additional Personnel Operational Management Solutions

Shift Scheduling

Streamline staffing with automated callbacks, drag-and-drop scheduling, custom payroll data exports, and a feature rich mobile app.

Inspections & Asset Management

Enhance safety and readiness with centralized asset management, streamlined inspections, and real-time tracking of all apparatus, equipment, and inventory.

Exposure Tracking & Personnel Performance

Proactively support members with critical incident and harmful substance exposure tracking and defend personnel decisions with comprehensive documentation.

> "[Vector LMS] is basically my training assistant that takes care of the paperwork, tracking everything, and making sure people are on track with training and certifications. It's working out great! And with Check It, having access to the mobile app to do the rig check and submit it is so much easier than filling out the paperwork, scanning it, putting it in the file, and all that."

*The Illinois Department of Public Health (DPH) requires all CE courses be approved by the local Medical Director. Emergency Medical Services (EMS) personnel should verify the continuing education requirements within their EMS System(s). EMS System Medical Directors may require their EMS personnel to obtain CE above the minimum requirements outlined in the Illinois EMS Administrative Code.
