

# North Carolina Fire & EMS Training

*Help Meet NCOSFM 36 Hour Annual Training Requirement\*, Fulfil 100% EMS CEUs, and Streamline Live Skill Evaluations*

Vector Solutions offers a flexible, easy-to-use training management system to assign, deliver, track, and report all types of training (online, in-person, live skills) and compliance tasks in one place.

Leverage your own content or outside training

Access NFPA-based fire and CAPCE-accredited online EMS courses

Monitor certifications and licenses

Manage in-person training events

Digitize live skill evaluations

Simplify policy distribution

Centralize training, resources, and important information

Analyze metrics and generate detailed reports

”

**We can set up our training program to not necessarily run itself, but it's automated... It really streamlines our process and our training program.**

*Assistant Chief of Administration,  
Kannapolis Fire Department*

### Training & Compliance

Streamline training and compliance management with a user-friendly platform that provides administrators with customizable management options and members with clear expectations and goals to keep crews safe, prepared, and compliant.

### Hands-on Assessments

Elevate live skill demonstrations and save admin time with the integrated mobile app that makes it easy to assess competencies, identify skill gaps, and boost skill mastery with photos and videos, automated calculations, real-time coaching, and color-coded rating scales.

### Data Analytics

Gain critical insights and expedite training records requests (ISO, FOIA, etc.) with comprehensive recordkeeping and granular analytics to measure training program success and prove competencies.

**TargetSolutions makes it easy to track all our training. With other programs you have to enter things three times but, in TargetSolutions, you only have to enter it once.**

*Training Captain, Apex Fire Department*
