Tennessee Fire Service Training

450+ Online Courses To Help Meet Training Requirements For The TN Educational Incentive Pay Program—With Automated Reporting To Acadis

Vector Solutions offers an automated process of reporting training completions from our local LMS training management system, TargetSolutions, to the state's Acadis instance. There is no charge for AgencyConnect, the system which enables this real-time reporting automation.

TARGETSOLUTIONS   **ACADIS®**

Vector now offers an automated process of reporting training completions from our local LMS training management system, TargetSolutions, to the state's Acadis instance, to simplify your Tennessee Educational Incentive Pay reporting.

- No double data entry and no documentation uploads needed.

- All training (live skills, classroom, online), ISO tracking, EMS recertification CEUs, and reporting for the Tennessee Educational Incentive Pay program can be managed in one system.

- Vector's courses have been preapproved by the Tennessee Firefighting Personnel Standards and Education Commission.

With the TargetSolutions and Acadis integration, fire personnel in Tennessee can now have a single source of truth for all their certifications and training records—from hire to retire—which not only reduces risk, but also makes it easier to access records for compliance validation, pre-requisite documentation, reciprocity needs, worker's compensation claims, educational incentive pay, and more.

Fire training coordinators LOVE TargetSolutions because all training (online, classroom, skills, etc.) is in one place—digital, searchable, reportable—and easy to track.
