.....

Vector LMS, TargetSolutions Edition

July 2024

## 2024 Course Retirement and Replacement Recommendation Guide

Based on feedback from valued customers like you, Vector Solutions has been working hard to improve the overall learner and admin training experience on Vector LMS, TargetSolutions Edition.

These efforts mean ensuring our online training courses are relevant, up to date, and accessible in the most practical and effective format to provide the best experience possible.

Over the last 2 years, we have created and enhanced over 250 courses and plan to release over 100 new and updated courses across our public sector catalogs throughout 2024.

For course release details going back to 2021, please visit the Vector LMS, TargetSolutions Edition Support Center [Product Updates: Content page](#).

Updating our course catalogs to remove older versions of courses ensures you and your learners have access to the most up-to-date online training content.

As new research, tactics, approaches, and industry best practices emerge, it is critical for first responders and all government personnel to keep up with the evolving landscape when the stakes are high and public safety is on the line.

This document details older versions of courses that will be retired and identifies recommended replacement courses already available on your platform or in production.

## FAQs

---

### **Q: When a course is retired will it still appear in my course library?**

**A:** After the date of the retirement, the course will no longer appear in your library.

### **Q: When a course is retired will it still appear in “My History” and completion reports?**

**A:** Yes. Learners will not be able to access the course anymore, but they will still see the record in “My History”.

### **Q: Will learners still be able to access their Certificate of Completion for retired courses?**

**A:** Yes. The certificate of completion will still be accessible for all courses being retired in “My History”.

### **Q: What will happen to pending assignments?**

**A:** They will be removed. Administrators may want to send a reminder to users with pending assignments.

### **Q: What will happen to the credentials that have these courses?**

**A:** CERTIFIED CREDENTIALS:

- Any course that was deactivated during the retirement process will appear greyed out and noted as “Archived/Sunset” in the Certified Credential.
- The course will no longer appear in the available training section of the credential topics for learners.
- Completed courses will still contribute towards the credential total completion progress.
- Completed courses will still appear in the completions section for the learner.

**A:** CUSTOM CREDENTIALS:

- Any course that was deactivated during the retirement process that is in a custom credential will appear greyed out and noted as “Archived/Sunset” in the Manage Credentials tab accessible by Site Administrators.
- The course will no longer appear in the available training section of the credential topics for learners.
- Completed courses will still contribute towards the custom credential total completion progress.
- Completed courses will still appear in the completions section for the learner.
- **It will be up to the site administrator to remove the course(s) and make changes to the credential requirements. If the changes are not made you will see a “phantom” course in the credential and users may not be able to meet the requirements for that credential.**

### **Q: What will happen to my completions that were reported to CAPCE for NREMT or to my state agency?**

**A:** Any courses completed prior to their retirement and reported by Vector to CAPCE for NREMT or to the state will not be affected.
