Quarterly Catalog Maintenance Guide

Vector LMS, TargetSolutions Edition

Q1 2025

Vector LMS, TargetSolutions Edition, Quarterly Catalog Maintenance Guide: Q1 2025

At Vector Solutions, we are dedicated to providing you with the most relevant, high-quality online training to keep your personnel prepared and compliant.
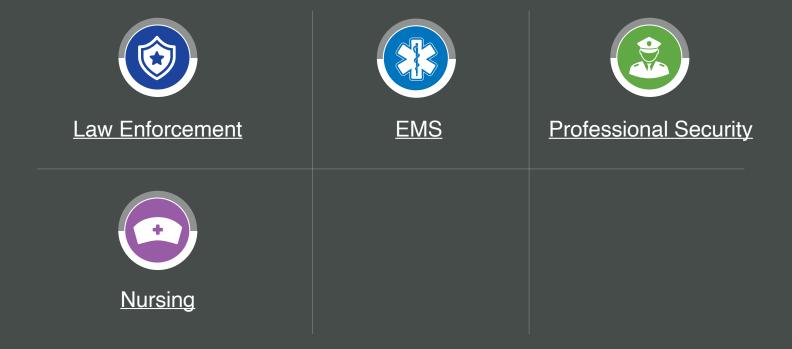

To maintain this standard, we are transitioning to a quarterly maintenance schedule to retire older courses that no longer meet our standards as current research, tactics, requirements, and industry best practices evolve.

Please review this guide in advance to ensure personnel complete in-progress assignments and give system admins time to adjust assignments or custom credentials as needed.

For a complete list of new and updated courses released each month across catalogs throughout 2024, see the *Public Sector Course Release 2024* resource.

This guide details retiring courses, available replacement courses, and important FAQ information that includes actions system admins may need to take before the update.

On January 7, 2025, we will update the following catalogs
(click to jump to catalog details)

Law Enforcement

EMS

Professional Security

Nursing

FAQs

Q: When a course is retired will it still appear in my course library?

A: After the date of the retirement, the course will no longer appear in your library.

Q: When a course is retired will it still appear in "My History" and completion reports?

A: Yes. Learners will not be able to access the course anymore, but they will still see the record in "My History".

Q: Will learners still be able to access their Certificate of Completion for retired courses?

A: Yes. The certificate of completion will still be accessible for all courses being retired in "My History".

Q: What will happen to pending assignments?

A: They will be removed. Administrators may want to send a reminder to users with pending assignments.

Q: What will happen to the credentials that have these courses?

A: CERTIFIED CREDENTIALS:

- Any course that was deactivated during the retirement process will appear greyed out and noted as "Archived/Sunset" in the Certified Credential.
- The course will no longer appear in the available training section of the credential topics for learners.
- Completed courses will still contribute towards the credential total completion progress.
- Completed courses will still appear in the completions section for the learner.
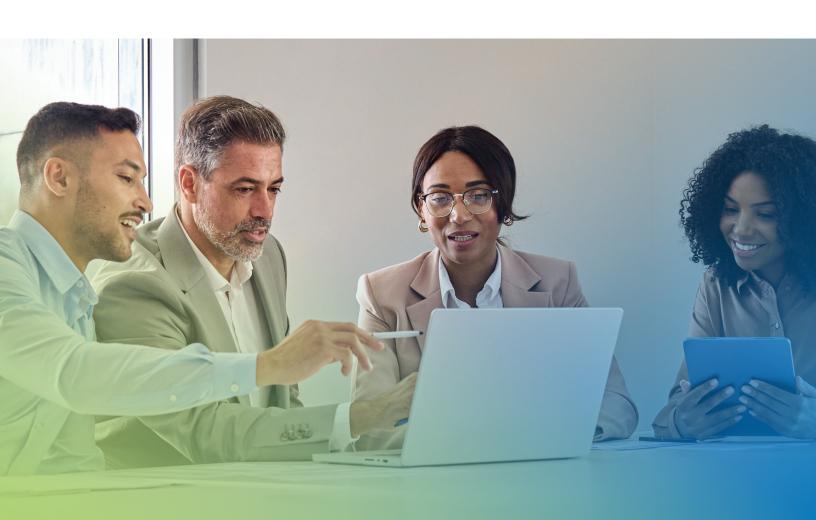

A: CUSTOM CREDENTIALS:

- **It will be up to the site administrator make updates to their custom credential requirements. It is recommended to leave the courses to be sunset in the credential or completion progress will be affected (*see example*). The site administrator will only need to add any replacement courses into the credential. If the changes are not made you will see a "phantom" course in the credential and users may not be able to meet the requirements for that credential.**
- Any course that was deactivated during the retirement process that is in a custom credential will appear greyed out and noted as "Sunset by Vector Solutions" in the Manage Credentials tab accessible by Site Administrators.
- The course will no longer appear in the available training section of the credential topics for learners.
- Completed courses will still contribute towards the custom credential total completion progress. NOTE: Removing sunset courses from the credential will affect the learner's progress.
- Completed courses will still appear in the completions section for the learner.

Q: Why are we moving to quarterly catalog maintenance?
A: More predictable, smaller sunsets lessen impact on admins while maximizing learner experience.

- Older versions of courses will be removed on a more consistent basis to ensure that your learners are utilizing the most up to date and compliant training content.

- Setting a consistent cadence will allow you to anticipate our communications on the upcoming maintenance process.

- Sunsets will be smaller and more manageable, taking less time to review and make modifications to your Custom Credentials.

- System admins can expect to start receiving upcoming quarterly catalog maintenance communications 90 days before courses are removed, with 60- and 30-day reminders and in-app notifications up to the sunset date.

- 2025/Q1 2026 Quarterly Catalog Maintenance Schedule:

Sunset	90-Day Communications Begin
January 2025	October 2024
April 2025	January 2025
July 2025	April 2025
October 2025	July 2025
January 2026	October 2025

Law Enforcement

We are excited to add several brand-new courses to the law enforcement catalog by the end of 2024, see 'coming soon' references in the Replacement Course Title column. Throughout 2025, we are releasing even more quality, relevant, and IADLEST-approved online courses to help supplement department training.

Retiring Course Title	Replacement Course Title
	(Course ID in parenthesis identifies course with the same or similar title and can be searched)
