Acadis Compliance

Acadis Compliance replaces what used to be an incredibly time-consuming, paper-based process with an automated tool that helps manage all types of professional certifications, as well as pay stipends, security clearances, resource maintenance, or any event that requires recurring actions. Automated alerts remind personnel of required compliance deadlines. Compliance managers receive the required compliance information into their queue for approval, rejection with optional clarification notes, and the ability to automate future approvals of similar events.

No matter how many certifications or events you manage—and no matter how complex the certification requirements are—the Acadis Compliance module reduces manual administration time and expedites the compliance process, while also eliminating phone calls, emails, and frustrating bottlenecks.

Key Benefits

Ensure Compliance

Maintain essential safety and accountability standards by managing the compliance of personnel, facilities, organizations, and inventory

Save Time

Assign active periods to qualifications and certifications, and then easily manage impending expirations and renewals

Customize Content

Include as many compliance requirements as you like through user-defined fields, and customize your own certification requirements

Stay Current

Make the most of management dashboards and reports that help ensure all personnel (including instructors) are in compliance with all key qualifications and re-qualification/certification criteria

Maximize Efficiencies

Allow your team members (through the Acadis Portal) to see, print and renew their certifications online with full audit support—allowing you to spend less time administering paperwork and more time perfecting your training programs

Feature Comparison

Unlike generic systems, the Acadis Readiness Suite was built from the ground up to meet the unique needs of public safety and military agencies. Acadis delivers more comprehensive functionality to automate manual and time-consuming processes and eliminate fragmented, siloed systems.

Feature	Acadis®	Generic
Track training compliance	✔	✔
On-screen alerts of certification expirations	✔	✔
Manage training compliance by job category	✔
