Acadis Recruiting

With Acadis Recruiting, you can streamline your hiring processes, identify the right candidate for your organization, and get an overview of a recruits' person record as they move through the hiring process.

Acadis Recruiting is a comprehensive solution that provides features such as digital web forms, document management, pre-hire testing, workflows and task routing, and electronic signatures. With useful automation and easy reporting, you can prevent human error and reduce manual processes with a standardized and consistent scoring system for all applicants. And because screenings can be sent by email with an easy access link, you can screen applicants wherever they are located.

With all evaluations and activities located in one place in a person's record, easily and quickly understand who your best applicants are.

Key Benefits

Develop role-based criteria

Create reusable screening templates for hiring roles that contain unique, pertinent characteristics tied to the specific role.

Manage evaluator responses

Assign individualized codes to evaluators per candidate so responses can easily be tracked and collected.

Tag response evaluations

Open and track individualized rating screens for each evaluator. Evaluators enter answers about the candidate and receive an alert if a question is missed.

Get automated results

Review and analyze digitized responses quickly and easily for better and faster decisions.

Certify consistent scoring

Ensure that all candidates are consistently and accurately evaluated by using role-based templates
