Acadis Surveys

Acadis Surveys is a fully integrated survey builder module that provides the ability to customize and automatically distribute electronic surveys, collect student reaction to training and instruction, and store data in Acadis for evaluation.

Survey how students with credentials or experiences are doing in a specific class. Discover which instructors are best suited for each part of your training curriculum. Collect valuable feedback correlate all the information you gather about students, faculty, facilities to identify areas for improvement.

Together with Acadis Testing and Acadis Performance Evaluations, the Suite supports Kirkpatrick® Levels 1, 2, and 3, allowing assessment of reaction, learning, and behavior. In addition, Acadis Surveys is flexible enough to support non-instructional surveys and polls, allowing your agency to quickly gather information from constituents on various topics.

Key Benefits

Create Custom Surveys
Use Likert-type scales and free-form text fields to create surveys that gather the information most impactful to your organization

Make Better Decisions
Have the data you need to maximize value from every investment in your training program

Optimize Efficiency
Automate data collection and eliminate the aggravation (and cost) involved in compiling information from multiple survey sources

Categorize and Analyze Impact
Define survey groups for categorizing and grouping response data for further analysis

Feature Comparison

Unlike generic systems, the Acadis Readiness Suite was built from the ground up to meet the unique needs of public safety and military agencies. Acadis delivers more comprehensive functionality to automate manual and time-consuming processes and eliminate fragmented, siloed systems.
