

Acadis Workforce Portal

The Acadis Workforce Portal empowers agencies to provide designated representatives with secure access to comprehensive training records for all of their personnel.

In a single, centralized location, training supervisors and compliance managers can view personnel hire-to-retire training records and certifications. In conjunction with other Acadis portal modules, authorized users can also register personnel for coursework, in-service training, and more.

The Acadis Workforce Portal makes it easy to track an entire teams' compliance, even if the team is geographically distributed and involves multiple stakeholders who manage training and compliance. Because data entry is available to authorized reviewers, you can eliminate paperwork bottlenecks that would otherwise obstruct effective training management, while creating a more complete view of individual and team readiness.

Key Benefits

Get the Complete Picture

Provide agency leaders with the ability to access authoritative training and certification information for their personnel

Ensure Compliance

Coordinate certification renewal activities proactively by monitoring certification expiration information (including status and expiration dates of certifications for all agency or department personnel)

Empower Action

Let authorized agency officers submit in-service training events and personnel change requests that can be approved—or even auto-approved—through the Acadis Workforce Portal

Access Anywhere

Access key information through the Acadis Portal Framework, which allows secure remote access to training records across your entire organization

Feature Comparison

Unlike generic systems, the Acadis Readiness Suite was built from the ground up to meet the unique needs of public safety and military agencies. Acadis delivers more comprehensive functionality to automate manual and time-consuming processes and eliminate fragmented, siloed systems.

Feature	Acadis®	Generic
Online access to employee training and certification history	✓	✓
Report in-service training events and hours with roster (requires Portal Framework)	✓	✓
Calculate in-service training hours	✓	✓
