

Content as a Service

Meet Federal Mission Mandates with an Agile, Customized Online Training Development Subscription

Envisage Technologies' Content as a Service (CaaS) subscription empowers Federal agencies to rapidly deploy compliant, high-impact online training content to meet training mission mandates—without increasing headcount or overburdening internal teams. Leveraging over 25 years of expertise in designing and developing award-winning online course content, our agile model transforms raw knowledge into interactive, SCORM-compliant courses optimized for the Acadis® Readiness Suite but compatible with any LMS, with fast turnaround, scalable delivery, and measurable outcomes.

By Leveraging Vector Solutions' Custom CaaS, Federal Agencies

Meet Training Mandates Quickly

Quickly adapt training to meet new executive orders, legislative mandates, and compliance requirements without delays.

Improve Workforce Readiness

Train more people, faster, with blended training programs that improve comprehension and retention.

Are Audit-Ready Anytime

Custom online courses delivered via Acadis LMS offer built-in compliance tracking and comprehensive reporting capabilities.

A CaaS Delivers

Fast Deployment

CaaS agile development delivers full scope services, from concept to SCORM-compliant mission-critical online content that outpaces traditional development models.

Budget Predictability

Fixed pricing by interactivity level and consolidation of all costs into one predictable capacity-based subscription.

Scalable & Flexible

Serve large, dispersed workforces in multiple languages, manage sudden training surges, and update content to meet changing compliance demands.

Engaging Training

High-quality 2D/3D animations, simulations, and interactive modules proven to boost retention and improve learning outcomes.

Cost-Smart Content Creation

Save on instructor fees, travel, and production overhead and reduce internal workload; avoid hiring or reassigning staff away from mission-critical work.

Compliant & Audit-Ready

Meets Federal Office of Personnel Management (OPM), Section 508, regulations as well as agency-specific standards.

Why Outsource Instead of Build In-House?

Traditional course in-house development costs can escalate quickly, considering:

Project management, instructional designers, multimedia developers, e-learning programmers

Authoring, media production, animation software and licensing expense

Accessibility compliance resources

A Full-Scope CaaS Subscription Includes

- Discovery and scoping with a dedicated project manager
- Instructional design and multimedia production
- Multi-language support
- SCORM-ready delivery for Acadis LMS or any LMS
- Compliance tracking and ongoing content updates

CaaS Subscription Pricing Engagement Levels

Level	Description	Use Case
Level 1	Text, Stock Photos, Multi-Choice + T/F Assessments	Simple Compliance
Level 2	Video + AI Narration, Matching Assessments	General Onboarding
Level 3	Human Narration, 2D/3D Animation, Custom Video Branching Assessments	Mission-Specific Skills
Level 4	Gamification, Simulations, Immersive Training	High-Stakes, Scenario-Based

Proven Federal Impact

25 Years of eLearning experience equates to millions of learners served.

Delivered 217 courses in 12 months, in 5 languages, for a global enterprise.
