

Check It RapidReady

Built by Us. Ready for You.

Specialized, High-Touch Implementation & Comprehensive Support

Experience turnkey, white-glove implementation and managed services designed to accelerate your Vector Check It launch. Check It RapidReady handles setup and configuration end-to-end, ensuring your system is mission-ready the first day your team starts using it.

What's Included

RapidStart Kickoff & SOP Analysis

Deep discovery of your agency's workflows, rosters, assets, and checklists to align Check It with agency operational goals.

Managed Configuration & Data Import

Vector configures your Check It site, imports all customer-provided data (any format accepted), and validates accuracy.

Administrator Training & Readiness Assessment

High-touch, hands-on training delivered by Vector subject matter experts, ensuring your admins are fully enabled on custom-built sites.

Launch & Graduation

Go-live support and strategic transition into your managed services.

High-Touch Managed Support

Proactive assistance and optimization post-implementation, with seamless overlap across Customer Success and Care teams.

Are You RapidReady?

Jumpstart your journey to optimized inspections and asset management with a custom-built system configured for your agency.

Vector Check It
RapidReady

The RapidReady Difference

Hassle-Free Setup

No admin bottlenecks. We import your data and configure your system to your needs.

Accelerated Go-Live

Your agency is operational on day one post-implementation.

Maximized ROI

Your agency realizes the full value of Check It, supported by RapidReady implementation

Continuity of Support

Seamless coordination across teams eliminates support gaps.

As part of Vector's unified agency readiness platform, Vector Check It streamlines truck checks, simplifies equipment inspections, and centralizes management of all your assets in one place, from any device.
