Simplify Accreditation Management with AccrediTrack

AccrediTrack saves significant administrative time while helping agencies achieve and maintain accreditation with confidence.

AccrediTrack was purpose-built for agencies and accrediting bodies to remove the complexity, inefficiency, and risk of managing accreditation with paper files, spreadsheets, and disconnected systems. Agencies gain clarity, visibility, and control while accreditation managers save time and reduce administrative burden.

As part of Vector's unified agency readiness platform, AccrediTrack provides a centralized, secure solution to manage every phase of the agency accreditation process—ensuring agencies stay organized, audit-ready, and fully prepared for initial accreditation and reaccreditation.

Designed for Law Enforcement

AccrediTrack is built specifically for public safety, focusing on simplicity, ease of use, and affordability. Agencies can be up and running quickly—without long implementation timelines or complicated workflows.

Modern Technology That Simplifies Compliance

AccrediTrack integrates seamlessly within Vector's unified readiness platform, giving agencies one secure login to access policies, training records, proofs, and accreditation documentation.

Deeper Visibility and Accountability

Unlike manual systems, AccrediTrack provides real-time dashboards, status tracking, and audit logs that improve transparency, accountability, and communication across agencies and accrediting bodies.

24/7 Access to Accreditation Documentation

Secure, role-based access allows accreditation managers, agency staff, and assessors to view, manage, and update accreditation materials anytime, ensuring nothing slows down the process.

Easier Tracking, Accountability, and Audit Readiness

Detailed tracking, status updates, and audit logs replace manual processes and ensure agencies are always prepared for assessments, reviews, and reaccreditation.

Streamlined Proof Management

AccrediTrack maps accreditation standards directly to supporting proofs, such as policies, training records, and documentation, eliminating time-consuming searches and duplicate data entry, scanning, and paper shuffling.

Dashboards That Keep Accreditation on Track

At-a-glance dashboards show progress by standard, status, and assessor readiness, with automated reminders and alerts to keep everyone aligned and on schedule.

Task Assignment and Communication Tools

Assign tasks, track ownership, and notify contributors automatically, keeping accreditation efforts moving forward without endless emails and follow-ups.

Smart Integration Across Vector's Platform

AccrediTrack integrates with Vector's training and policy management software solutions, giving agencies instant access to the documentation they need—without logging into multiple systems.

Accreditation Management That Works as Hard as You Do

AccrediTrack empowers agencies and accrediting bodies with a single, integrated platform to manage standards, proofs, assessments, and communication—helping agencies earn, maintain, and renew accreditation with confidence and efficiency.
