

Training Management and Comprehensive Online Courses for Corrections

Technology To Promote Safety And Ensure Training Compliance For Member Organizations

For cities, counties, and other organizations, risk pools play a critical role in managing liability. One of the most effective methods to reduce liability and risk is by providing comprehensive, high-quality training that promotes safety and compliance.

TargetSolutions, Vector's training management system, is the leading training and compliance platform for all public entities and is purpose-built to help member organizations meet these goals by simplifying every aspect of the training management process.

Additionally, Vector Solutions offers a catalog of high-quality online corrections training courses, including courses certified by the IADLEST National Certification Program (NCP)™.
