

Meet NFPA Standards for PPE, SCBA, and All Other Equipment with Vector Check It

Simplify equipment management from cradle to grave, streamline inspections, and retain records, aligned with NFPA guidance

Meeting National Fire Protection Association (NFPA) codes and standards for PPE, SCBA, and all other equipment requires strict adherence to policy and procedures, meticulous recordkeeping, and a management system that can keep up with the day-to-day realities and challenges of the fire service.

NFPA codes and standards that Vector Check It can help support include the following, and more:

NFPA 1851

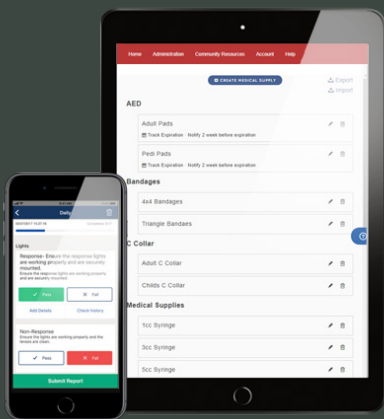

Standard on Selection, Care, and Maintenance of Protective Ensembles for Structural Fire Fighting and Proximity Fire Fighting

NFPA 1852

Standard on Selection, Care, and Maintenance of Open-Circuit Self-Contained Breathing Apparatus (SCBA)

NFPA 1877

Standard on Selection, Care and Maintenance of Wildland Fire fighting Protective Clothing and Equipment

Vector Check It can reduce the administrative burden of inspections, maintenance, decontamination, recordkeeping, and other tasks related to PPE, respiratory protection, and other firefighting equipment without creating excessive complexity for the members performing routine checks and inspections.

Lifecycle Equipment Management

Vector Check It and its integrated mobile app helps agencies adhere to NFPA guidance and record the full lifecycle of PPE, SCBA, and all equipment for complete cradle-to-grave documentation.

Leverage the dedicated PPE equipment pool for more control and deeper insight into the status of all PPE.

Checklists and Inspection Procedures

Customizable forms allow agencies to develop checklists and inspection procedures aligned with NFPA guidance, eliminate paper forms, and can be completed from a mobile device. Track when each inspection took place, what actions were taken, and who completed it with eSignatures. Set up notifications to remind personnel of upcoming checks or inspections and ensure they are completed on time with at-a-glance dashboards.

Recordkeeping and Reporting

Maintain records required by NFPA relating to PPE, SCBA, and all other equipment in one place. Track every event at every stage and produce exportable detailed reports with ease. Get real-time views of the status of each item, its physical location, and who or what it's assigned to.
