

Acadis Mobile

Acadis® Mobile puts the power of the Acadis Readiness Suite directly into instructors' hands—on the range, in the field, or anywhere training happens. Built on a modern framework and continuously improved to enhance the user experience, the app gives instructors real-time access to rosters, attendance*, and scoring, including firearms qualifications, timed and physical tests, and pass/fail or scored assessments with custom retests and waiver rules. Training records stay connected to the Acadis Portal, whether instructors are online or off.

Key Benefits

Seamless, Secure Access

Mobile login is synced directly to each user's Acadis Portal account*, with support for biometric Face ID*, giving instructors fast, secure access to their assignments in the field.

Record Attendance and Score Assessments in the Field

From firearms qualifications to timed and physical tests, Acadis Mobile enables instructors to record attendance and it supports pass/fail and scored assessments, complete with custom retest and waiver rules, as well as full support for Student Groups.

Work Offline, Sync When Ready

Instructors can record attendance and scores in the field, even without network connectivity, and then sync results to the Acadis Portal when a connection is available.

Real-Time Notifications & Portal Access*

Instructors stay on top of critical activities with mobile notifications and can connect directly to the Acadis Portal from their device whenever they need to.

Self-Service Student Check-In*

When configured, students can check themselves in with a secure QR code, saving instructors time on manual roster management.

Built for a Modern Mobile Experience

A modern framework and technology foundation delivers a faster, more intuitive experience for instructors and students alike—on iPad, Android, and mobile phones.

*These Acadis Mobile features are coming in 2027

In the Field: How Instructors Use Acadis Mobile

Log In

Instructors log in with their Acadis credentials to see every class they're assigned to instruct; for example, an annual firearms qualification.

Open the Roster

Tap into a class to view the enrolled student roster, record attendance, communicate with students, and generate reports.

Record Scores in Real Time

Touch a student's name to enter attempt scores and pass/fail results, plus optional details like weapon serial number. No internet connection required.

Sync to Acadis

When ready, instructors log in and send completed scores directly to the Acadis Portal, where grades and training records are instantly updated.

Key Capabilities

- ✓ Firearms qualifications and marksmanship scoring
- ✓ Timed and physical performance tests
- ✓ Pass/fail and scored assessments
- ✓ Custom retest and waiver rule configuration
- ✓ Offline data capture with automatic sync
- ✓ Secure QR code student check-in

Available On:

iPad • Android tablets & phones • iOS mobile phones
